

Surfin.... USA or Canada , Afghanistan or wherever you are in the world

Who would have thought how massively important the internet would become in our lives a few years ago. We now have people of all ages, not just the young ones who can handle technology but people who had no interest whatsoever in using computers, tablets or phones to surf the internet but have now become experts all through necessity and desire. Men and women in their 80's are surfing experts all due to the world circumstances that the covid pandemic brought upon us.

I'm surprised that the internet did not crash as the whole world relied on it to communicate, see each other and feel part of a family that was divided by circumstances beyond their control. We were able to talk to and see our families but most importantly we were able to share the gospel and also to have some semblance of fellowship with prayer and teaching meetings. Zoom meetings sprung up all over the place, morning noon and night for those who wanted to join and share with each other.

It all started with a short 2 minute story

We started of course with facebook <https://www.facebook.com> with the posting of some 2-4 minute stories. Men lined up from everywhere to be part of this new venture. This was never done before but has since developed into Lifestories TV which we share each lunchtime on all our social media platforms.

Lifestories Live Monday Nights

With our meetings cancelled for the foreseeable future we started Lifestories Live every Monday night at 8:00pm on Zoom and broadcast live to facebook and youtube. Since we began in March 2020 we have reached millions whom

we would never have reached to hold a dinner meeting here and there or special events occasionally.

We have had 83,003 visits to our “How can I get to know God ?” page our website www.lifestoriesworldwide.com where people are instructed in how to get to know God. The website itself has made great strides over the last 3 months alone with 10.9 Million impressions from all over the world. In the last 3 months visits are up by 62% with visits to our prayer page up 56%, Afghanistan being the country with most visits.

We also managed to coordinate a worldwide conference (Translated into several languages) over three days with participants from Germany, Canada, Nigeria, Russia, Latvia, USA, Hong Kong, India to mention but a few, the likes of which had never been done.

Our presence is also prominent on YouTube

Our YouTube page has become very popular with thousands of subscribers and over 3200 viewing hours to boot. You can watch 100’s of videos including Man2Man, What’s the meaning of Life ? and all the previous Monday Lifestories Live guests who share their personal story with us. You can subscribe and increase our viewing hours by visiting.

How did we manage to do this ?

How have we achieved this ? Well, through a lot of prayer, dedication and the enthusiasm to share the gospel with others. The gate is wide open and we are marching through it. We continue our Monday night Lifestories Live with speakers lined up until January 2022.

Don't forget to join us.

Please join us on Monday nights to be blessed, share with both family and friends and therefore becoming social media evangelists. It’s never been easier to share the gospel, **JUST A CLICK** is all it takes. So go on give it a try.

People are now very likely to search not only Google for answers but search for a person that can answer their question

What is the new environment of the world of social media like,

and how can we fruitfully share faith in it? Are you a social media evangelist ? It's as easy as sharing a video or life story with your friends on facebook, twitter, instagram or what ever social media platform you use frequently.

2Ch 20:15 And he said, Hearken ye, all Judah, and ye inhabitants of Jerusalem, and thou king Jehoshaphat, Thus saith the LORD unto you, Be not afraid nor dismayed by reason of this great multitude; for the battle *is* not yours, but God's.
